

Helping GOALS

GOALS is a multi-dimensional not for profit youth service organization which has been growing steadily since our origins in 1994. While the program is best known as the largest “diversity” program involving hockey sports in America, GOALS offers many other services and programs involving daytime, after school and weekend athletic, learning and community service enrichment for youngsters.

There are many ways to help GOALS through morning, afternoon or evening volunteering (tutoring, teaching, chaperoning, supporting GOALS community service missions, or coaching with activity programs. Helping to support our many facilities, equipment “bank”, or bus fleet are other possibilities. Call the GOALS office at (714) 956-4625 and speak with a staff member to schedule a visit and match your skills and interests with program needs. Alternatively e-mail us at info@goals.org and we’ll get back to you ASAP.

Donations of equipment (especially sports related) are always welcome. In addition to year ‘round roller hockey and ice hockey programs, which involve more than 1,000 underserved youth annually, GOALS operates soccer, tennis, basketball, lacrosse and general fitness programs to thousands of other children as well. GOALS staff can pick any donations up or alternatively you can simply drop them off at our Headquarters or other nearby GOALS facilities. All donations to GOALS are tax exempt to the extent permitted by IRS regulations involving donations to charities.

GOALS operates a fleet of buses, trailers and a centralized “equipment bank” to accommodate the athletic needs of all children in the program. Help with equipment, fleet, and facility maintenance in support of daily program operations is always welcome.

GOALS charges no fees to our participating youth given their underserved nature. However there are significant annual operating expenses involving the professional core staff, facility operations, daily bus transportation, program insurance, and equipment. Thus any dollar donations are gratefully accepted from corporate, foundation or individual philanthropic sources.

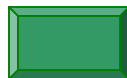

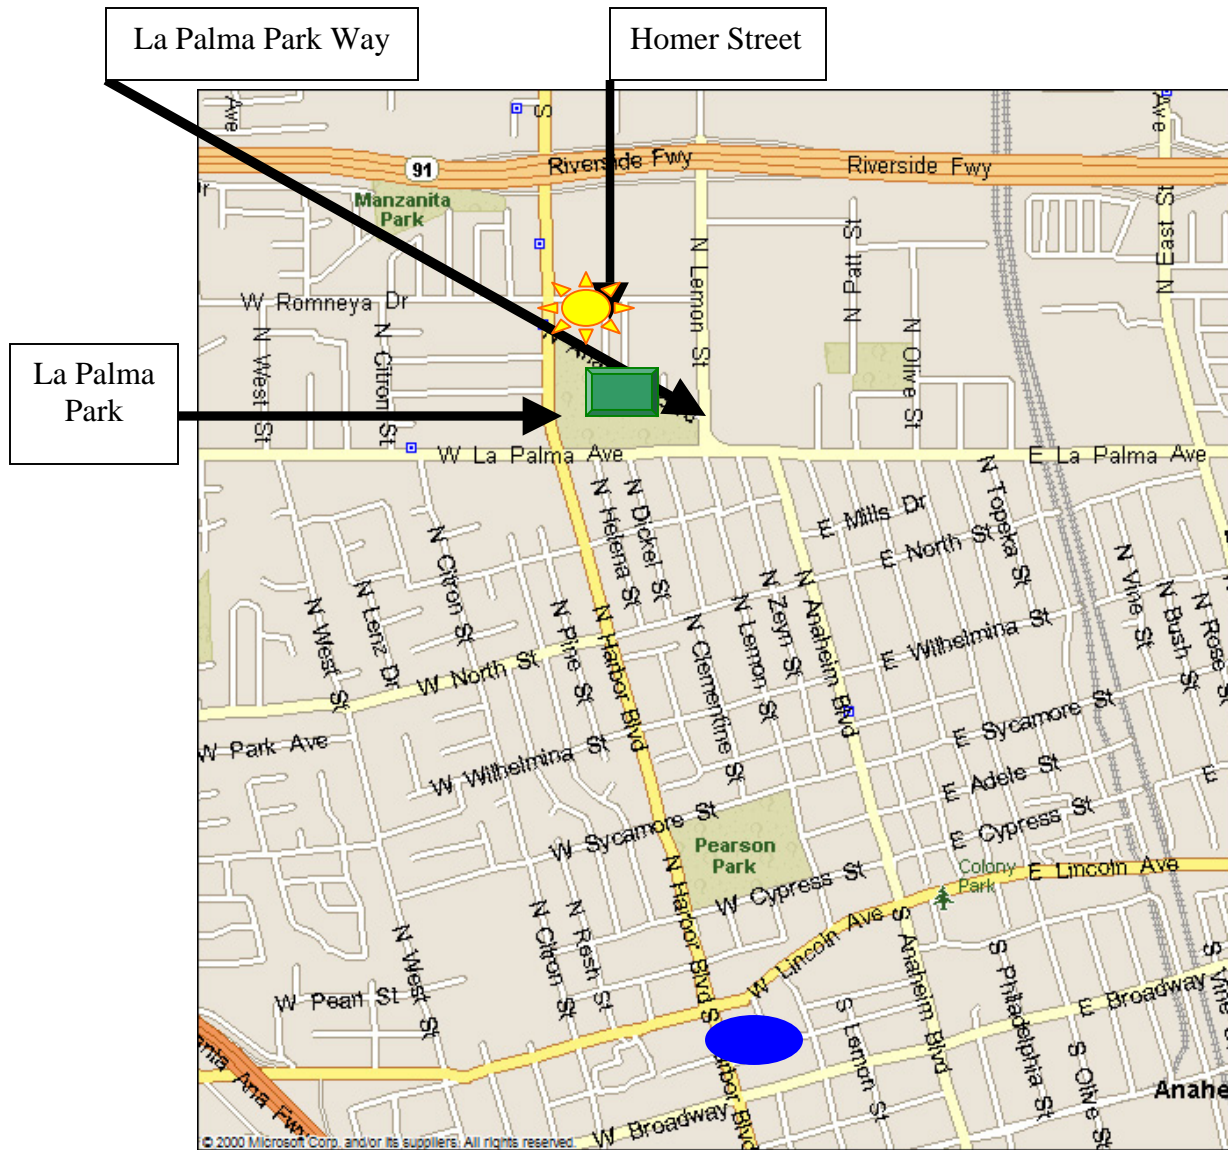

Thank you in advance for helping us make the lives of our involved youngsters that much better through your support!
